“ Richard or Louie as we all called him was truly a great friend. We shared many a good times together. Monopoly games, late night conversations, and many meals at my Mom's house when he came back to Schuyler especially at Christmas. My Mom was always thrilled when he came back in the Summer with a huge variety of items from his fruit trees. Those Cherries were especially delicious. I had tried to get him to come back for our class reunions the last two times, but he seemed to be so dedicated to his work that he chose not to make the trip. A true blessing to the Electrical engineering field as well as the many students that he taught over the years. I know I speak for all of us in the Class Of 62 in saying he will be surely missed.

“ My husband, Sam (Class of '61), always spoke highly of Richard. I want to express my sympathy to the family. Sheri Oberg Balak

“ Richard, as I usually referred to him, was a dear friend from our earliest days in Schuyler. As neighbors, we spent a lot of time together growing up--doing such things as collecting World War II era stamps, playing the many player pianos in Gus and Cleo Fayman's garage and participating in countless scouting activities. Of course, along the way, we both created more than a little mischief.

After moving from Schuyler during my freshman year in high school, I had almost no contact with Richard until our college years, when we saw each other occasionally as students at UNL

After going our respective ways following college, we didn't "reconnect" until much later in life, exchanging a few emails for a short period of time.

In reflecting on our friendship, I was always impressed with Richard's keen intellect and his wide range of interest in a host of different subjects. I always considered him a true friend and his departure from this earth leaves me with a real void.,,,My sincere condolences to brother Leonard and his family.
